## RedBall Sport, the best game for a great future.

A moment of a match A moment of a match Students from Cervantes school in Gijon have invented this new inclusive and ecological sport.

Children from year 6 at the press conference/ **AXT**

**ARIADNA Álvarez & JULIA Alonso**

I feel that you don't know what sport is invented this year. Without doubts It is the Cervantes Redball sport. It is the most inclusive, ecological and sustainable sport. Furthermore, it's the best sport to play in the school yard.

For these reasons, we consider this sport inclusive, ecological and sustainable:

Firstly, this sport is inclusive because we included all type of people. For example, a person in a Wheelchair can play without problems.

Secondly, it is ecological because the ball is recycled. This ball is made by milk cartons.

Finally, this sport is sustainable because you don't need to spend a lot of money practicing it.

Taking Into account all said before, we can say that this sport is very funny and you can play In every place you imagine without forgetting that It's perfect for people with disabilities.

**ARIADNA Álvarez.**

Do you like sports? Have you ever try new ones? The Cervantes Redball Sport is a sport created by students from year 6. Don't you want to play? It's obvious that Cervantes Redball sport is an incredible sport.

Now it's time to explain how Cervantes RedBall Sport was created.

The first reason, is the COVID times. Last year was horrible. The COVID virus was very strong. In fact, Children cannot play with balls, ropes, etc. It was very sad. This thing causes that children got bored, because they did not know what to do!!!

For this reason, we created the Cervantes RedBall Sport. Moreover, the RedBall is inclusive, sustainable and ecological sport because all materials to play were recycle. Cervantes RedBall Sport is the best sport!!!

Summarizing the main ideas said before, we must say that we had the idea to create the Cervantes RedBall Sport because COVID and because children got bored. Also, the CRS es an ecological sport: all the materials to play are recycling!!!!
